YOUR TOWN DUMP

Use it freely — Care for it

Your town dump has been set up for your personal convenience. It provides a suitable place where you can dispose of the large amounts of dangerous, inflammable waste material and other useless items which accumulate around your household and local stores, brush, etc., cut on your property. The town dump has become a valuable and indispensable asset in modern community life.

The most successful town dumps are supervised — regular days provided for their use and inflammable material consistently burned. The town dump which receives no attention, where waste material is scattered about without supervision of any description, soon becomes a community menace and a liability rather than an asset.

Many people still burn debris around their homes.

A large number of such fires get out of control causing unnecessary damage and expense to the burner. Why burn at home? Make use of your town dump and eliminate the hazard of burning. It will be easier for you — personally and financially.

If, however, you do burn on your premises

1. Secure a permit from your local forest fire warden — the law requires it. The warden won't refuse you if conditions are safe.

2. Be sure to properly supervise your burning. Don't leave it.

3. Make certain your fire is DEAD OUT before leaving it.

Save yourself much possible difficulty.

Use your dump freely — Help keep it safe

Number of local fires	4
Number of acres burned	4½
Number of permits issued	98

REPORT OF CEMETERY TRUSTEES

After their appointment, the trustees visited each of the seven cemeteries and it was decided that the work required was as follows; Maintenance, such as mowing, raking, etc.: improvements, such as loaming, fertilizing, seeding, and trimming of trees; mapping and recording graves in all cemeteries except in Contoocook, where it is already done; and new construction in the New section of the Old Hopkinton Cemetery. A great deal of time was spent seeking available loam and the new section had to be laid out. Mr. Nathaniel Davis contributed generously of his time in this work and did most of the necessary surveying.

In the Old Hopkinton Cemetery, grading and loaming was completed in approximately half of the area. The balance should be graded and loamed in 1957 and the entire area fertilized and seeded. The roadways in the new section were gravelled and this section was harrowed and levelled. Progress has been made on mapping and coordinating names with lots in the Old and New cemeteries but much work remains to be done in this connection.

(8) The sum of $150.00 from Col. T. G. Methven, plus interest to date, for the perpetual care of the T. G. Methven lot in Hopkinton Old Cemetery.

(9) The sum of $150.00 from Ethel W. Yardley, plus interest to date, for the perpetual care of the Charles B. and Ethel W. Yardley lot in Hopkinton Old Cemetery.

(10) 1 Share of A. Perley Fitch Company Stock from John K. Graves, to be added to the "Helping Hand" Fund, already in existence.

(11) 1 Share of American Telephone and Telegraph Company Stock from Annie M. Stanley, for the perpetual care of the Frank E. Hall and George W. Weeks lot in Hopkinton New Cemetery.

(12) The sum of $150.00 from Albert H. Blake for the care of the Charles A. Blake lot, section C No. 50 in the Contoocook Cemetery.

(13) The sum of $150.00 from Albert H. Blake for the care of the Albert H. Blake lot, section D No. 38 in the Contoocook Cemetery.
Adopted in the affirmative.

Article 21: The following resolution offered by Raymond J. Barnard: Resolved by the town of Hopkinton, in town meeting convened, to increase the sale price of all cemetery lots as follows:

Residents from $25.00 to $50.00 per single lot
Non-residents from $50.00 to $100.00 per single lot
$150.00 for perpetual care to all non-residents

The following amendment was offered by Delbert E. Reade: Amend said resolution by striking out "residents from $25.00 to $50.00 per single lot" and inserting in place thereof "residents to remain at $25.00" so that the same as amended shall read:

Residents to remain at $25.00 per single lot
Non-residents from $50.00 to $100.00 per single lot
and $150.00 for perpetual care to all non-residents.

Adopted in the affirmative.

Article 22: The following resolution offered by Natt Davis: Resolved by the Town of Hopkinton, Town Meeting convened that there be created the office of Cemetery Trustees and that the Selectmen be instructed to appoint at once three Trustees; one for a term of three years; one for two years; and one for one year; and commencing in 1957 that the Town elect by ballot a Cemetery Trustee each year to succeed the one whose term expires, the terms of such elected Trustees to be for three years each. Further resolved that the Cemetery Trustees be made responsible for the care, maintenance and improvement of all town cemeteries and for the expenditures of all sums appropriated or otherwise available for cemetery purposes; provided however that the authority

of said Cemetery Trustees shall not extend to the care and maintenance of cemeteries as to which a private cemetery association is actively performing the care and maintenance thereof. Adopted in the affirmative.

Article 23: The following resolution offered by C. G. Phelps: Resolved by the town of Hopkinton, in town meeting convened, to pass over Article 23. Adopted in the affirmative.

Article 24: The following resolution offered by C. G. Phelps: Resolved by the town of Hopkinton, in town meeting convened, to pass over Article 24. Adopted in the affirmative.

We have three new teachers this year. Mrs. Kathleen Titcomb has replaced Mrs. Germaine Sawyer as fourth grade teacher in Contoocook. Mrs. Danella Pearson has replaced Miss Gloria Jackson as English and Social Studies teacher and girls' basketball coach at the High School. Mr. Malcolm Purington who has replaced Mr. Russell Antell as mathematics teacher, will be assistant basketball coach and baseball coach.

The national birth rate continues to increase which means an increase in the number of teachers needed on a national basis. The increased number of classrooms in proportion to the number of teachers increases the competition for teachers which results in a continued upswing in teachers' salaries. Hopkinton, in order to meet this competition, must increase its salaries, and in special fields where teachers are especially scarce, our salaries must be substantially increased to hold our teachers or get suitable replacements for teachers who leave us.

The evaluation study of the High School was completed on November 15 and 16, 1956. A Committee consisting of outstanding teachers, principals and members of the State Department of Education and headed by Professor James Baker of Boston University, visited the

school and made a very thorough study of our whole high school program. Mr. Baker gave an oral report of the committee's study on the last day of the visitation. Since then he has submitted a comprehensive written report which I hope will be discussed in detail at some future PTA Meeting.

Without going into the study in detail, I can report that the Committee found that we had a good high school program. At the same time, the Committee made some very constructive suggestions that would help us make a better school program. Some of the suggestions can be implemented by the staff, others will have to be started by the school district in providing extra materials and extra teacher service.

Much credit is due Mr. Milne and his staff for the amount of time and effort they spent on this study. The result will be a stronger high school program for the children of Hopkinton.

Our school population continues to increase. Last year, we had three hundred ninety-six pupils registered in September. This year, we had four hundred twenty-seven pupils enrolled. We now have forty-four pupils enrolled in the fourth grade in the two elementary buildings. If this class is not divided into two groups when they come together in the High School building, some children are going to suffer severe handicaps. The following three years, we will average fifty in the fifth grade, and the bulge will continue on to the Junior High and High School. These figures tend to increase as the grades move along by new people moving into the community. Both elementary schools are crowded now and space is going to have to be provided.

The really difficult questions to reach an agreement on are, *how* and *where* construction should take place. Last year, the School Planning Committee, after much study, developed a two phase building program under which a six classroom elementary building would

be constructed at once in Hopkinton Village to replace the two room building there, and within five years a second building of six or eight classrooms would be constructed in Contoocook. To this committee report was added a minority report which favored construction immediately in Contoocook with the aim of ultimately developing a central elementary school. The majority report was unanimously backed by the School Board and was adopted at the March meeting of the School District in 1956. However, at a Special School District Meeting held in June, the majority plan failed to get the two thirds vote necessary for a bond issue, and at the time this report is being written, our school housing problem remains unsolved.

A Special Meeting of the School District has been called for the evening of February 6, 1957 prior to the regular 1957 school district meeting. At this special meeting, the School Board is to present to the District a further opportunity to vote on the question of going ahead, at once, with the Hopkinton Village Unit of the two school plan, or, initiating instead, the immediate construction of a six classroom unit in Contoocook. Whether this meeting will succeed in obtaining a school for the children, I do not know, but somehow the differences of points of view among us must be reconciled. I am sure of two things. One is that we need more building space for our children, and secondly, each year that the building is postponed means additional cost for the School District. Building costs have increased, and the building that was planned for last year will cost from fifteen to twenty thousand dollars more to construct this year.

This school year, the state is assisting us on the payment of the high school to the amount of $2600 and we hope that this Legislature will continue the school building aid program. The Federal School Building Aid Program will come up again in this Congressional

Session, but I would not dare to guess what the outcome will be. Certainly towns like Hopkinton, which have grown rapidly and face unusual building programs, need help.

I hope that the school district will see fit to provide the sorely needed space for our growing school population, whatever our differences are in what kind of plan we favor. We must have more classrooms.

Superintendent of Schools

REPORT OF THE PRINCIPAL

January 21, 1957

Mr. William C. Sterling, Superintendent
Supervisory Union No. 26
Contoocook, New Hampshire

Mr. Sterling:

I hereby submit my report for the year 1955-56 as Principal of Hopkinton High School.

Members of the Class of 1956

Sylvia Allen
Judith Babson
Beverly Blanchette
James Bowen
John Bullard
David Coleman
Nancy Densmore
John Falvey
Eleanor Gelinas
James Hilton
Beverly Hughes
George Langwasser
Marcia Martin
Jeremy Pendleton
Patricia Reid
Virginia Smith
Nancy Wason

Of these seventeen graduates, seven, or about forty-one percent, have gone on to further their education. These graduates are attending the following institutions: University of New Hampshire; Providence — Barrington Bible Institute; and Margaret's Beauty Salon. Of the remainder, three are in service and seven are gainfully employed.

The evaluation of the high school was completed in November. A visiting committee headed by Doctor James Baker of Boston University spent two days at the high school checking our evaluation. The remainder of the committee consisted of two high school principals, six master teachers, and the Director of Secondary School Services of the State Department of Education. It was an extremely alert and hard working committee.

The report in its entirety is available to anyone who

desires it. I shall list a few of the recommendations and commendations:

Recommendations:

(1) Additional offerings in the areas of physical education, art, general mathematics, industrial arts, and a third year of a foreign language.

(2) Vocational training in the building or carpentry trades and general metals or automotives.

(3) Opportunity for practice on a greater variety of business machines.

(4) More developmental practice in creative writing, development of a curriculum guide for English, more attention to development of library and communication research skills.

(5) Greater variety of reading, resource, and reference material in the foreign language area.

(6) Opportunities for boys to receive some instructions in certain areas of home economics and provisions for a washing machine.

(7) An adequate physical education program to meet the needs of the students.

(8) Additional mathematical realia should be provided and development of one room as a mathematics laboratory.

(9) More opportunities provided in instrumental music and music appreciation.

(10) A general science course at the advanced grade levels, more use made of field trips, and additional instructional material.

(11) Increased use of community resources in social studies area and expansion of audio-visual materials.

(12) Library books catalogued, stamped and organized more effectively and an increased variety of newspapers and periodicals should be provided.

(13) Increased information on occupations and vocations be provided.

(14) Provision for filing cabinet and storage facilities for teachers in each classroom.

(15) Full utilization of the building by the secondary school population.

Commendations:

(1) For attention to and successful arrangements for grouping pupils for instructional purposes.

(2) For the attempts to develop realistic applications in out-of-school agricultural experiences.

(3) For the well planned and executed program of business education.

(4) For the extent to which grouping of pupils by achievement and ability contributes to more effective teaching of English.

(5) For the emphasis placed upon spoken French.

(6) For the breadth and variety of experiences in homemaking.

(7) For providing a requirement for at least one year of mathematics in grades nine through twelve.

(8) For the quality of skill being developed in choral groups.

(9) For the variety of project-type activities in the science area and the up-to-date acquaintance and approach toward new materials and scientific phenomena.

(10) For extensive use being made of State Library facilities in the social studies area and for introducing current problems into the classroom.

(11) For the town's provision of a school building and for the excellent condition in which it is kept.

The staff will now make a thorough study of this report and determine which recommendations are valid and which are not. They will also determine what things can be carried out in the immediate future and what things must be carried out over a period of time. I feel that this evaluation has been of great value.

I wish to thank all those who have cooperated with us in an effort to give our students the best possible education.

Respectfully submitted,

W. H. MILNE, *Principal*
